

§ 904.505 Summary sale.

(a) In view of the perishable nature of fish, any person authorized to enforce a statute administered by NOAA may, as authorized by law, sell or cause to be sold, and any person may purchase, for not less than its domestic fair market value, fish seized under such statute.

(b) Any person purchasing fish subject to this section must deliver the proceeds of the sale to a person authorized to enforce a statute administered by NOAA immediately upon request of such authorized person. Anyone who does not so deliver the proceeds may be subject to penalties under the applicable statute or statutes.

(c) NOAA will give notice of the sale by registered or certified mail, return receipt requested, to the owner or consignee, if known or easily ascertainable, or to any other party that the facts of record indicate has an interest in the seized fish, unless the owner or consignee or other interested party has otherwise been personally notified. Notice will be sent either prior to the sale, or as soon thereafter as practicable.

(d) The proceeds of the sale, after deducting any reasonable costs of the sale, will be subject to any administrative or judicial proceedings in the same manner as the seized fish would have been, including an action *in rem* for the forfeiture of the proceeds. Pending disposition of such proceedings, the proceeds will, as appropriate, either be deposited in a NOAA suspense account or submitted to the appropriate court. The proceeds will not be subject to release under § 904.502 or § 904.506(f).

(e) Seizure and sale of fish is without prejudice to any other remedy or sanction authorized by law.

§ 904.506 Remission and mitigation of forfeiture.

(a) *Application of this section.* (1) This section establishes procedures for filing with NOAA a petition for relief from forfeitures incurred, or alleged to have been incurred, under any statute administered by NOAA that authorizes the remission or mitigation of forfeitures.

(2) Although NOAA may properly consider a petition for relief from forfeiture along with other consequences

of a violation, the remission or mitigation of a forfeiture is not dispositive of any criminal charge filed, civil penalty assessed, or permit sanction proposed, unless NOAA expressly so states. Remission or mitigation of a forfeiture is in the nature of executive clemency and is granted in the sole discretion of NOAA only when consistent with the purposes of the particular statute involved and this section.

(3) NOAA will not consider a petition for remission or mitigation while a forfeiture proceeding is pending in federal court. Once such a case is referred to the Attorney General for institution of judicial proceedings, and until the proceedings are completed, any petition received by NOAA will be forwarded to the Attorney General for consideration.

(b) *Petition for relief from forfeiture.* (1) Any person having an interest in property seized and subject to forfeiture may file a petition for relief from forfeiture. Unless otherwise directed in a notice concerning the seized property, the petition shall be addressed to NOAA and filed with the Regional Attorney nearest to the place where the property is held (addresses in § 904.403(c)). NOAA will consider a petition filed after a declaration or decree of forfeiture only if the petitioner demonstrates that he or she did not previously know of the seizure and was in such circumstances as prevented him or her from knowing of it, except that NOAA will not consider a petition filed more than three months from the date of such declaration or decree. (See § 904.507 regarding the right of certain claimants to petition for restoration of proceeds from the sale of forfeited property.)

(2) The petition need not be in any particular form, but must set forth the following:

(i) A description of the property seized;

(ii) The date and place of the seizure;

(iii) The petitioner's interest in the property, supported as appropriate by bills of sale, contracts, mortgages, or other satisfactory evidence;

(iv) The facts and circumstances relied upon by the petitioner to justify the remission or mitigation;

(v) Any request for release under paragraph (f) of this section pending final decision on the petition, together with any offer of payment to protect the United States' interest that petitioner makes in return for the release, and the facts and circumstances relied upon by petitioner in the request;

(vi) The signature of the petitioner, his or her attorney, or other authorized agent; and

(vii) An express agreement to defer administrative or judicial forfeiture proceedings until completion of all other related judicial or administrative proceedings (including any associated civil penalty or permit sanction proceedings).

A false statement in a petition will subject petitioner to prosecution under 18 U.S.C. 1001.

(c) *Investigation.* NOAA will investigate the facts and circumstances shown by the petition and seizure, and may in this respect appoint an investigator to examine the facts and prepare a report of investigation.

(d) *Decision on petition.* (1) After investigation under paragraph (c) of this section, NOAA will decide the matter and notify the petitioner. NOAA may remit or mitigate the forfeiture, on such terms and conditions as under the applicable statute and the circumstances are deemed reasonable and just, upon a finding:

(i) That the forfeiture was incurred without willful negligence and without any intention on the part of petitioner to violate the applicable statute; or

(ii) That other circumstances exist that justify remission or mitigation of the forfeiture.

(2) Unless NOAA determines no valid purpose would be served, NOAA will condition a decision to remit or mitigate a forfeiture upon the petitioner's submitting an agreement, in a form satisfactory to NOAA, to hold the United States and its officers or agents harmless from any and all claims based on loss of or damage to the seized property or that might result from grant of remission or mitigation. If the petitioner is not the beneficial owner of the property, or if there are others with a proprietary interest in the property, NOAA may require the petitioner to submit such an agreement executed

by the beneficial owner or other interested party. NOAA may also require that the property be promptly exported from the United States.

(e) *Compliance with the decision.* A decision by NOAA to remit or mitigate the forfeiture upon stated conditions, as upon payment of a specified amount, will be effective for 60 days after the date of the decision. If the petitioner does not comply with the conditions within that period in the manner prescribed by the decision, or make arrangements satisfactory to NOAA for later compliance, the remission or mitigation will be void, and judicial or administrative forfeiture proceedings will be instituted or resumed.

(f) *Release of seized property pending decision.* (1) Upon request in the petition for relief from forfeiture, NOAA may in its discretion order the release, pending final decision on the petition, of all or part of the seized property upon payment by the petitioner of the full value of the property to be released or such lesser amount as NOAA deems sufficient to protect the interests served by the applicable statute. The following, however, will not be released:

(i) Property in which NOAA is not satisfied that the petitioner has a substantial interest;

(ii) Property whose entry into the commerce of the United States is prohibited;

(iii) Live animals, except in the interest of the animals' welfare;

(iv) Proceeds from the sale of seized property sold under § 904.505 (see § 904.507 regarding petitions for restoration of proceeds from the sale of property declared forfeited); or

(v) Property whose release appears to NOAA not to be in the best interest of the United States or serve the purposes of the applicable statute.

(2) If NOAA grants the request, the amount paid by the petitioner will be deposited in a NOAA suspense account. The amount so deposited will for all purposes be considered to represent the property seized and subject to forfeiture, and payment of the amount by petitioner constitutes a waiver by the petitioner of any claim arising from the seizure and custody of the property.

NOAA will maintain the money so deposited pending further order of NOAA, order of a court, or disposition by applicable administrative proceedings.

§ 904.507 Petition for restoration of proceeds.

(a) The general provisions of § 904.506 on petitions for remission or mitigation of forfeitures apply to petitions for restoration of proceeds from the sale of forfeited property, except as modified by this section.

(b) In addition to any evidence required under § 904.506, the petition for restoration of proceeds must be supported by satisfactory proof that the petitioner did not know of the seizure prior to the declaration or decree of forfeiture and was in such circumstances as prevented him or her from knowing of it.

(c) If forfeited property that is the subject of a claim for restoration of proceeds has been appropriated for official use, retention by the government will be regarded as sale for the purposes of this section.

(d) No petition for restoration of proceeds will be considered unless it is submitted within three months of the declaration or decree of forfeiture.

(e) If no petition is timely filed, or if the petition is denied, prior to depositing the proceeds NOAA may use the proceeds of sale to reimburse the government for any costs that by law may be recovered or to pay any reward that by law may be paid from such sums.

§ 904.508 Recovery of certain storage costs.

If any fish, wildlife, or evidentiary item is seized and forfeited under the Endangered Species Act, 16 U.S.C. 1531 through 1543, any person whose act or omission was the basis for the seizure may be charged a reasonable fee for expenses to the United States connected with the transfer, board, handling or storage of such property. If any fish or wildlife is seized in connection with a violation of the Lacey Act Amendments of 1981, 16 U.S.C. 3371 through 3378, or any property is seized in connection with a violation of the Magnuson Fishery Conservation and Management Act, 16 U.S.C. 1801 through 1882, any person convicted thereof, or as-

essed a civil penalty therefor, may be assessed a reasonable fee for expenses of the United States connected with the storage, care and maintenance of such property. Within a reasonable time after forfeiture, NOAA will send to such person by registered or certified mail, return receipt requested, a bill for such fee. The bill will contain an itemized statement of the applicable costs, and instructions on the time and manner of payment. Payment must be made in accordance with the bill. If the recipient of the bill objects to the reasonableness of the costs assessed he or she may, within 30 days of receipt, file written objections with NOAA at the address stated in the bill. NOAA will promptly review the written objections and within 30 days mail the final decision to the party who filed them. NOAA's decision will constitute final agency action on the matter.

§ 904.509 Abandonment.

(a) The owner of a seized item may abandon it to NOAA by various means, including, but not limited to, expressly waiving any claim to the item, refusing or otherwise avoiding delivery of mail concerning the seizure (as by giving a false name or address), or failing for more than 180 days to make or maintain a claim to the item.

(b) The owner of a seized item waives a claim to it by failing to respond within 120 days of issuance of a Government notice concerning the seizure, or by voluntarily relinquishing any interest in an item by written agreement, or otherwise.

(c) An item will be declared finally abandoned, without recourse, upon a finding of abandonment.

§ 904.510 Disposal of forfeited or abandoned items.

(a) *Delivery to Administrator.* Upon forfeiture of any fish, wildlife, parts or products thereof, or other property to the United States, or the abandonment or waiver of any claim to any such property, it will be delivered to NOAA for storage or disposal according to the provisions of this section.

(b) *Purposes of disposal.* Disposal procedures may be used to alleviate overcrowding of evidence storage facilities,
